

15 November 2012

Dear Marais Attorneys!

Thank you sincerely for your kindness in giving us so many of the items on our Needs list. The nappies, formula, cleaning materials, purity, sanitizer, tissues and especially the vacuum cleaner is much appreciated! Our Baby House 1 will be very grateful to you for that! The Dischem vouchers are crucial to our children, and our Operations Manager is going to use them today already! Baby House 1 is our biggest Baby House with 30 children and that's where the vacuum cleaner will go as well as some of the products! Please receive our grateful thanks for your kindness and consideration. Your thoughtfulness is greatly appreciated and we pray God rewards you for your kindness!

Since its officially summer now, we take our babies outside for a bit of Vitamin D and fresh air. Actually, it's also so that they can get used to a different environment so that it's easier for them when they are adopted! It is most amazing to witness their astonishment at the wind and the sun on their bodies, feel a leaf or experience the swing, its just so exhilarating to watch the awe of new experiences! Some cry at first as it's scary but most just enjoy the different atmosphere! We are the ones who are blessed to observe their discovery of God's creation!

May you be encouraged that your gift is making a definite difference in the lives of our children and although you may not get acknowledgement from them now, you know that you helped in some way to improve their lives!

Kind Regards

Marcelle Coertze
